The College of New Rochelle
2016 STEM Summer Academy:
College PreCalculus
July 5 - August 4, 2016

Are you a rising high school junior or senior looking to earn early college credit while building key “college knowledge” skills and experience?

The STEM Summer Academy at The College of New Rochelle offers a unique college credit precalculus course specifically for local high school students who have potential interest in STEM (Science, Technology, Engineering, and Mathematics) areas.

At the STEM Summer Academy, you will:

• Earn college credits through college-level course work in college precalculus
• Benefit from personal interaction and mentoring with full-time college faculty
• Participate in integrated, cross-discipline STEM applications and traditional and online formats
• Develop college persistence skills for STEM success
• Experience a supportive introduction to online college-level coursework
All at an affordable cost.

Admission requirements:

• Must be a rising high school junior or senior
• Must have completed high school precalculus or algebra II
• Minimum overall B average in math and science classes
• Written recommendation from a guidance counselor or math/science teacher

PARTICIPATION IS BY APPLICATION ONLY. Seats are limited, so apply early.
Applications will be accepted through June 15, 2015.
For more information on the program and how to apply, contact: STEMSummerAcademy@cnr.edu or 914-654-5214
