THE COLLEGE OF NEW ROCHELLE
Graduate School

Advanced Certificate in
BILINGUAL EDUCATION

THE COLLEGE’S MULTILINGUAL/MULTICULTURAL EDUCATION PROGRAMS recognize the diversity of linguistic backgrounds and cultures which characterize the children and families in the New York metropolitan area schools. Our programs stress language and linguistics, teaching methodology, cultural awareness, and understanding the special developmental needs of second language learners.

SPECIALIZATION
The Advanced Certificate in Multilingual/Multicultural Education leading to Bilingual Extension of Initial/Professional Certification in Classroom Teaching Areas extends the original certification to include the appropriate teaching of emergent bilingual learners through the inclusion of the native language. Through the knowledge, skills, and cultural sensitivities gained through the program, prospective teachers will be able to address the needs of children whose primary language is other than English.
