

THE COLLEGE OF NEW ROCHELLE

Graduate School

Master of Science and Advanced Certificate in

CAREER DEVELOPMENT

Help individuals reach their career aspirations

A DEGREE IN CAREER DEVELOPMENT will enable you to provide guidance to those seeking to advance their career or explore a new one. Our multidisciplinary curriculum allows you to develop the skills needed to assist people of all ages and backgrounds to establish and achieve their career objectives.

HANDS-ON EXPERTISE

You'll gain practical, hands-on experience and training through two internships. Graduates can explore career opportunities such as a career specialist at a college or university, a human resources manager, or as a recruiter for corporate and nonprofit organizations.

A CERTIFICATE IN CAREER DEVELOPMENT gives you added expertise in career guidance counseling, and is an additional specialization for students already enrolled in the Guidance and Counseling and the Mental Health Counselor programs. Obtaining the certificate opens up new career opportunities in professional areas such as training and development, and human resources.
